Cleaning Manual
Roof Windows

Cleaning the Window

• Rotate sash 180˚ to clean outer pane.

• Secure the sash in place using the locking bolt - ensuring both hands are free for safety.

• Clean the pane using a soft, clean cloth/chamois or non-metal squeegee.

• Clean water will be sufficient for cleaning the pane.

• In hard water areas add a small amount of detergent to soften the water or wipe off all excess water after cleaning.

WARNING

• Avoid using silicone.

• Avoid using cleaning products containing abrasive particles.

• Do not use chemical products.

• Avoid wearing jewellery or sharp objects whilst cleaning.

• To prevent further damage protect the pane with clean plastic until cleaning has finished.
